

# HOW TO INSTALL THE RUBBER GAITER ADAPTER

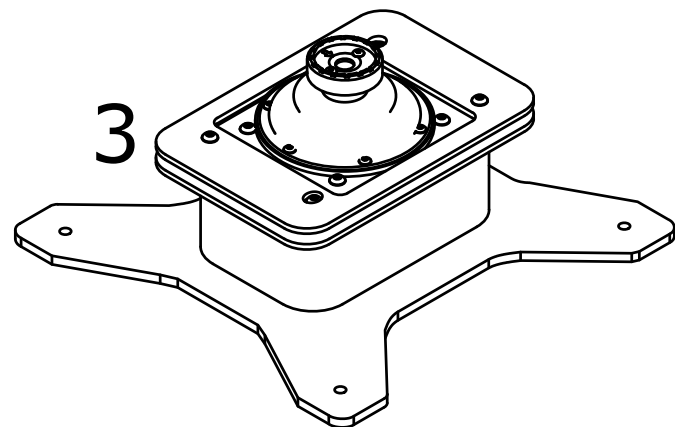

1  
Remove the two screws according to the positions marked by the red dots using the 2.5mm hex wrench

Insert the gray adapter then fix it with same screws removed in step 1

2

3  
Install the rubber gaiter by placing it to the bottom of the sidestick, then fix it to the rubber gaiter adapter (no fixing screws needed)

Note: the green adapter used with a Sidestick area only
